

[add **Competence Activity Card 3.1**]

Competence

20m

Activity 3.1

Write down possible methods for fulfilling your project's tasks and objectives.

part 1/1

A 10x10 grid of dots for graphing. The grid consists of 10 rows and 10 columns of small black dots, providing a coordinate plane for plotting the graph of the function $y = \frac{1}{2}x^2$.

A 10x10 grid of dots, intended for a dot plot. The grid consists of 10 rows and 10 columns of small black dots.

A 10x10 grid of dots for graphing. The grid consists of 10 rows and 10 columns of small black dots, providing a coordinate plane for plotting the graph of the function $y = \frac{1}{2}x^2$.
